On-demand collaboration

As a Cisco “Advanced Collaboration” partner, Omega offers the full suite of WebEx services designed to make online meetings as quick and seamless as possible.

WebEx is a cloud based web conferencing tool allowing users to connect to a Video Conference via mobile or desktop devices.

WebEx users can easily share their screens and even collaborate on each other's content.

Whether you're conducting large online events, running marketing campaigns, generating leads, delivering interactive training, collaborating with remote colleagues, or providing live technical support, our range of WebEx services offer the right web conferencing solution to meet your needs. Built on the secure and highly scalable Cisco WebEx Collaboration Cloud and delivered as Software-as-a-Service (SaaS), Cisco WebEx solutions provide real-time collaboration for your business.

Key benefits:

- Use the platform, device and browser of your choice
- Face-to-face collaboration with HD video
- Share anything on your screen
- Powered by Cisco's world-class security and reliability
- No dial-in, no passcodes

As your collaboration partner of choice and experts in the field, Omega can integrate WebEx with your existing Video Conferencing setup. Contact us today to find out more about our range of WebEx services and get ready to enjoy enhanced collaboration across your organisation.
