

Bring an Expert to your next event

In today's fast-paced world, one of the smartest ways to run an effective business is to delegate specific tasks to the people with the expertise to do the best job possible.

Omega Events is a specialised service from Omega Digital Experts aimed at ensuring that your next corporate event offers a world-class technical experience. From internal CEO announcement broadcasts over streaming and video conferencing links to national and global sites, to external events requiring state of the art video conferencing and audio visual presentation technology – we have you covered.

We'll supply both the technical expert and technology required

Omega Events offers on-site audio visual and video conferencing equipment hire as well as technical resource support catering for all corporate and conference venues - customised to your personal requirements.

Omega Events services include:

- Consultation advice for optimal venue experience
- Audio visual and video conferencing technology hire
- On-site equipment setup and testing prior to event
- Technical standby support
- De-installation of equipment hire
- Room venue hire nationally

Benefits of Omega Events services:

- Latest technology available for hire
- Daily, monthly or annual on-site support contract options
- Dry-run and tests conducted prior to event
- On-site dedicated technical support per event
- Skilled technical advice for event planning
- Savings on travel and accommodation costs

Contact us today, and let Omega take full responsibility for ensuring your guests receive a world-class technical experience at your venue.
